PLACE OF IMPACT

School María de Jesus Castaño Guerra, we are improving the situation of the school, by doing a documentary. Thanks to the documentary we will be able to raise awareness about how education quality is here in Monterrey.

We are a project specifically working on helping a school by making awareness of its situation, by making a documentary where people can see the status of one school in Monterrey.

OUR MISSION

- Public schools should be more supported
- Public schools have lack of materials for a better education
- Make awareness of most public schools situation in Nuevo Leon
- Education in public schools got affected because of the pandemic.

Why do we do it?
